

## Product Submittal Sheet

CompleteFlash™ Components - Synthetic rubber/polypropylene (SR) corners and end dams, and stainless steel corners

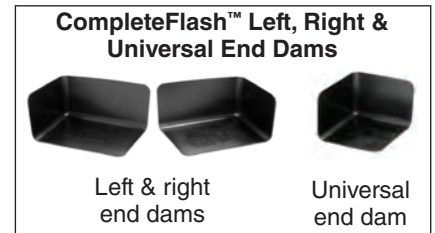

### Description

To complete the TotalFlash® Cavity Wall Drainage Solution, stainless steel outside corners, CompleteFlash™ pre-formed inside & outside corner boots, and left, right and universal end dams may be ordered separately. Pre-formed corners and end dams are an EPDM-compatible synthetic rubber/polypropylene blend (SR). Stainless steel (SS) corners conform with the stainless steel drip edge, a pre-formed 26-gauge stainless steel.
