

STAINLESS STEEL, KYNAR, & COPPER DRIP EDGE

DripEdge

DESCRIPTION

Mortar Net's drip edge's are available in stainless steel, cold-rolled copper, and four colors of Kynar-coated galvanized steel. All come with a 3/8" hemmed edge to create clean-looking edges during installation. Combine with our metal corner drip edges to complete the installation.

- Fast, easy, one-person installation
- Hemmed edge ensures water draining from the flashing will be directed away from the face of the building
- Stainless steel & cold-rolled copper are 100% recyclable
- Kynar colors include almond, gray, tan, and terra-cotta
