Masonry Division of
Keene Building Products

MortarNet® Ultra

Product Submittal Sheet

Description

Introducing MortarNet® Ultra, from Mortar Net Solutions – Masonry Division of Keene Building Products. MortarNet® Ultra suspends mortar droppings above the flashing and weeps, so they stay clear and unobstructed. The patented dual layers help provide compressibility within inconsistent cavity widths, while maintaining the drainage and ventilation you can expect from a MortarNet product. Weep holes must be used with MortarNet® Ultra to allow effective moisture drainage and wall drying. Mortar Net recommends WeepVent or CellVent to help keep weep holes open and prevent insects from entering the cavity through the weeps.

Short Form Spec

Provide dual-layered hi-loft mesh and structural strand polymer mesh (1", 1.5", or 2") trapezoidal configuration to maintain airflow and drainage while suspending mortar droppings at unequal heights. Provide one or more thicknesses as required to fill cavity width. Install per manufacturer's instructions.

Product: Subject to compliance with requirements, provide MortarNet® Ultra as manufactured by Mortar Net Solutions™ - Masonry Division of Keene Building Products.

Manufacturer

Mortar Net Solutions™ - Masonry Division of Keene Building Products
23750 St. Clair Avenue. Euclid, OH 44117
Telephone: (800) 664-6638 Fax: (219) 787-5088
