

Moisture Management For Masonry

WeepVent™

Product Submittal Sheet

Description

WeepVent™ are used in conjunction with MortarNet™ with Insect Barrier™, WallDefender®, or Residential HouseNet® to keep weep holes open and free of insects and debris. Insert a WeepVent™ no more than 24" apart to allow cavity walls to breathe, drain, and dry quickly. They are 90% open-weave mesh and available in eight colors to match mortar color.

Short Form Spec

Provide UV stable recycled polyester mesh, rectangular shape, inserted in brick cavity wall open head joint. Match color selection with mortar color. Available in eight colors: brown, tan, red, almond, white, gray, black and pebble. Install per manufacturer's instructions.

Product: Subject to compliance with requirements, provide MortarNet™ WeepVent™ by Mortar Net Solutions™
